As an Informatics Engineering student, I excel in logical thinking and problem-solving. Experienced in custom Android app development, I'm passionate about technology, eager to explore web development, aiming to become a skilled full-stack developer.

EDUCATION

Bachelor's degree Informatics Engineering

Oct 2022 - Apr 2026

Kwik Kian Gie School of Business

GPA: 3.97

Receiving Adaro Foundation Scholarship.

WORK EXPERIENCE

Flutter Developer

Jan 2024 - Feb 2024

Freelance

Jakarta Raya, Indonesia

Building an android application connected to hardware that is capable of detecting gas leaks. Through Sangkuriang, users can receive gas leak notifications directly on user's smartphones.

Tech Stacks: Dart (Flutter), Firebase

- Created User Data Storage: Uses Firebase Firestore to store user data securely and efficiently.
- Implemented User Authentication: Features for registration, login, logout, anonymous login, and login with Google, using Firebase Authentication.

PROJECTS

Track Your Money

May 2024 - Jun 2024

Track Your Money is a web application designed to help users manage our personal finances easily.

Tech Stacks: HTML, TailwindCSS, JavaScript, PHP, MySQL, Particles.js, Chart.js

- Developed CRUD (Create, Read, Update, Delete): Implementation using PHP to manage financial transaction data in a MySQL database.
- User Authentication: Secure user registration and login system.
- Data Visualization: Fetching data from the database and displaying it as interactive charts using Chart.js.

Piru

May 2024 - May 2024

Piru is a web-based application designed to simplify the process of borrowing rooms on campus.

Tech Stacks: HTML, CSS, JavaScript, PHP, MySQL

- Developed CRUD (Create, Read, Update, Delete): Implementation using PHP to manage loan data.
- Enhanced Process Efficiency: Replacing paper-based and signature-based manual borrowing methods with a digital system.

Does

Nov 2023 - Dec 2023

Does is a Flutter-based application that combines a to-do list and a weather app. It allows users to manage tasks and provides real-time weather updates based on the user's current location.

Tech Stacks: Flutter, Firebase

- Developed User Authentication: Implemented login and logout functionalities using Firebase Authentication.
- To-Do List Management: Created features for adding, updating, and deleting tasks, enhancing user productivity.
- Location and Weather Integration: Utilized APIs from location-based services to display current location and weather information.

ORGANIZATIONAL & VOLUNTEER EXPERIENCE

Executive Secretary

Oct 2023 - Present

Informatics Community

Jakarta Raya, Indonesia

- Managed event administration, prepared and archived files and letters resulting in improved organization and efficiency.
- Developed proposals and activity reports for multiple events, resulting in a significant 20% increase in event attendance.

Curriculum Team Officer

Oct 2023 - Present

Google Developer Student Clubs IBIKKG

Jakarta Raya, Indonesia

- Developed an annual learning path for 30 GDSC members through collaboration with the team.
- Developed learning materials on Android Development and Machine Learning resulting in increased member engagement and improved knowledge retention for 30 GDSC members.

Event Staff

Oct 2022 - Oct 2023

Finance Group of IBIKKG

Jakarta Raya, Indonesia

Led team as chief executive to organize event within one month, resulting in successful execution. Coordinated all aspects of event, attracting 90 participants. Increased participation and engagement by 25% through effective promotional strategies. Ensured smooth running of event by efficiently managing logistics and operations.

SKILLS

Languages: HTML, CSS, JavaScript, PHP, MySQL, Python, Java, Dart, Kotlin, C#
Frameworks: Bootstrap, Tailwind CSS, Flutter, React JS
Tools: VS Code, A.Studio, Figma, Firebase, Git, Github, Linux, XAMPP, NetBeans, Enterprise Architect
Soft Skills: Problem Solving, Communication, Teamwork, Time Management, Adaptability, Critical Thinking, Self-Learning

LANGUAGES

Indonesian (Native proficiency) • **English** (Professional working proficiency)

CERTIFICATIONS

CAMP404 React JS Web Programming (Credential ID: CCPR2211B17179Q6UTI2)  by **Camp404** **Jan 2023**

AWARDS

Top 50 team in Hackfest 2024 by **Google Developer Student Clubs** **Jan 2024**
Make it into the top 50 teams for the 2024 Hackfest. An Android app developed by Team CodaCraft helps people learn how to grow food crops while also being environmentally friendly and lowering global warming.
